

EXHIBIT C

**IVANHOE VILLAGE MAIN
STREET – ART PANEL PROJECT
DESIGN TEMPLATE SAMPLE**

This is a typical art panel diagram. Use it to design the artwork, as it would be painted in real scale.

Use unique colors, bold graphics work well, along with bright images that can be seen from a distance.

DETAILED IMAGES of the panel must be submitted on 8.5" x 11" paper separately (if required).

You may create your own template for the design of your specific panel (or use this template as shown).

Artists' designs should reflect an accurate resemblance of the finished artwork as it would be applied to the art panel.

Panel to be painted throughout. However, art will be covered here.
